47.304-1 General.

- (a) The *contracting officer shall* determine f.o.b. terms generally on the basis of overall costs, giving due consideration to the criteria given in 47.304.
- (b) Solicitations shall specify whether offerors must submit offers f.o.b. origin, f.o.b. destination, or both; or whether offerors may choose the basis on which they make an offer. The contracting officer shall consider the most advantageous delivery point, such as-
- (1) F.o.b. origin, *carrier*'s equipment, wharf, or specified *freight* station near contractor's plant; or
- (2) F.o.b. destination.
- (c) In determining whether f.o.b. origin or f.o.b. destination is more advantageous to the Government, the *contracting officer shall* consider the availability of lower *freight* rates (*Government rate tenders*) to the Government for f.o.b. origin *acquisitions*. F.o.b. origin contracts also present other desirable traffic management features, in that they-
- (1) Permit use of transit privileges (see <u>47.305-13</u>);
- (2) Permit diversions to new destinations without price adjustment for transportation (see 47.305-11);
- (3) Facilitate use of special routings or types of equipment (*e.g.*, circuitous routing or oversize *shipments*) (see 47.305-14);
- (4) Facilitate, if necessary, use of premium cost transportation and permit Government-controlled transportation;
- (5) Permit negotiations for reduced *freight* rates (see <u>47.104-1(b)</u>); and
- (6) Permit use of small *shipment* consolidation stations.
- (d) When destinations are tentative or unknown, the *solicitation shall* be f.o.b. origin only (see 47.305-5).
- (e) When the size or quantity of *supplies* with confidential or higher security classification requires commercial transportation services, the *contracting officer shall* generally specify f.o.b. origin *acquisitions*.
- (f) When acceptance *must* be at destination, *solicitation shall* be on an f.o.b. destination only basis.
- (g) Following are examples of situations when *solicitations shall* normally be on an f.o.b. destination only basis because it is advantageous to the Government (see 47.305-4):
- (1) Bulk *supplies*, such as coal, that require other than Government-owned or operated handling, storage, and loading facilities, are destined for *shipment* outside CONUS.
- (2) Steel or other bulk construction products are destined for shipment outside CONUS.
- (3) *Supplies* consist of forest *products* such as lumber.

- (4) Perishable or medical *supplies* are subject to in-transit deterioration.
- (5) Evaluation of f.o.b. origin *offers* is anticipated to result in increased administrative lead time or administrative cost that would outweigh the potential advantages of an f.o.b. origin determination.
