7.107-3 **Bundling**.

- (a) $Bundling\ may$ provide substantial benefits to the Government. However, because of the potential impact on small business participation, before conducting an acquisition strategy that involves bundling, the agency shall make a written determination that the bundling is necessary and justified in accordance with $15\ U.S.C.\ 644(e)$. A bundled requirement is considered necessary and justified if the agency would obtain measurably substantial benefits as compared to meeting its agency's requirements through separate smaller contracts or orders.
- (b) The agency *shall* quantify the specific benefits identified through the use of *market research* and other techniques to explain how their impact would be measurably substantial (see 10.001(a)(2)(iv) and (a)(3)(vii)).
- (c) Such benefits may include, but are not limited to-
- (1) Cost savings;
- (2) Price reduction:
- (3) Quality improvements that will save time or improve or enhance performance or efficiency;
- (4) Reduction in acquisition cycle times, or
- (5) Better terms and conditions.
- (d) Benefits are measurably substantial if individually, in combination, or in the aggregate the anticipated financial benefits are equivalent to-
- (1) Ten percent of the estimated contract or *order* value (including *options*) if the value is \$94 million or less; or
- (2) Five percent of the estimated contract or *order* value (including *options*) or \$9.4 million, whichever is greater, if the value exceeds \$94 million.
- (e) Reduction of administrative or personnel costs alone is not sufficient justification for *bundling* unless the cost savings are expected to be at least ten percent of the estimated contract or *order* value (including *options*) of the bundled requirements.

(f)

- (1) Notwithstanding paragraphs (a) through (e) of this subsection, the approving authority identified in paragraph (f)(2) of this subsection *may* determine that *bundling* is necessary and justified when
- (i) The expected benefits do not meet the thresholds for a substantial benefit but are critical to the agency's mission success; and
- (ii) The *acquisition* strategy provides for maximum practicable participation by small business concerns.
- (2) The approving authority, without power of delegation, is-

- (i) For the Department of Defense, the senior procurement executive; or
- (ii) For the civilian agencies is the Deputy Secretary or equivalent.
- (g) In assessing whether cost savings and/or price reduction would be achieved through *bundling*, the agency and SBA *shall-*
- (1) Compare the price that has been charged by small businesses for the work that they have performed; or
- (2) Where previous prices are not available, compare the price, based on *market research*, that could have been or could be charged by small businesses for the work previously performed by other than a small business.
- (h) If a determination is made that *bundling* is necessary and justified, the *contracting officer shall* include it in the *acquisition* strategy documentation and provide it to SBA upon request.
